

CUPE LOCAL 1004 - 2026 ELECTIONS CANDIDATE FOR PRESIDENT

Scott McIntosh

I have been a Member of CUPE Local 1004 since 2001. In my 15 years I have worked in Sanitation, Streets and now FMS helping me understand the needs of my coworkers. I have been a member at large on the executive, the Vice President and the President of Local 1004. I am still in contact with many of the Presidents in the lower mainland and prepared to get bargaining committees together and serve notice before our contracts expire. When I became the President there was thousands of outstanding grievances. I worked with the executive and staff of the local to start building a foundation to address this. Now there is only hundreds. Making it better for our members and

dealing with important items in a timely manner. If elected, I would keep building on the core on what our members need starting with strong bargaining committees and strong contracts to put food on the table and a roof over our heads.
